

GlobalTeamsDirect – Compensation Plan

The full GlobalTeamsDirect Affiliate Program has now been released, it has the following levels:

- Free Affiliates
- Bronze Affiliates
- Silver Affiliates
- Gold Affiliates

Free Affiliate is the level that everyone first joins and this level allows affiliates to earn from GlobalTeamsDirect and refer new affiliates.

Bronze Affiliates enjoy the privileges of Free Affiliates plus they can refer advertisers. Free Affiliates can upgrade to Bronze Affiliate status at any time.

Silver Affiliates are Bronze Affiliates that have referred at least one active advertiser; an active advertiser is an advertiser that has either purchased an advertising campaign or paid us from our paid-for-success advertising. Upgrading to a Silver Affiliate is done automatically; you can also progress to the Silver Affiliate Level by making contributions to GlobalTeamsDirect.

All these levels have no fees.

Gold Affiliate is a status granted by GlobalTeamsDirect to Silver Affiliates who have made significant contributions to GlobalTeamsDirect and it could be in any of the following areas: marketing, marketing materials, affiliate referrals, advertiser referrals and/or those with demonstrated business building ability. Gold Affiliates may be offered a Gold Licence, a Gold Licence allows the Licence to operate GlobalTeamsDirect in a particular area.

Licences may be offered when the GlobalTeamsDirect business in a particular area reaches a level of business that allows the Licensee to have a cash-flow positive business when they start the licensed business. Gold Licensees will have direct input into the development of the future programs and development of GlobalTeamsDirect.

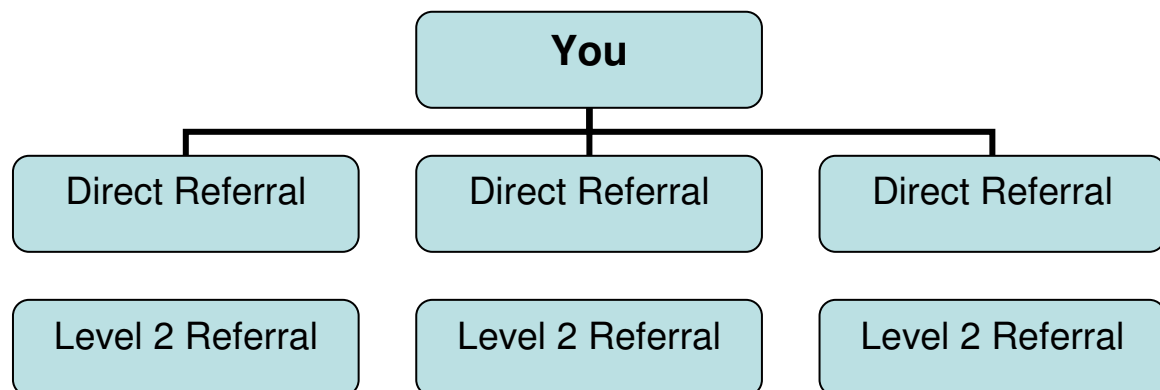

The Compensation Plan for GlobalTeamsDirect is a single referral level plan with an income sharing Bonus Pool.

There are no fees payable or qualifications to participate in the Compensation Plan.

There are four income sources for participating in the GlobalTeamsDirect program:

1. Direct income – your efforts
2. Referral income – when your direct referrals are credited so are you
3. Bonus Pool – when any GlobalTeamsDirect member is credited, there is a credit to the Bonus Pool in which you can share
4. Referring advertisers

Below shows the referrals connected to you from whom you receive credit. Although this is shown as three direct referrals your direct referrals are not limited in width – so you can refer as many people as you like and are yours to keep.

The Level 2 Referrals are those referred by your direct referrals you do share in the income from their activity, not directly, but through the Bonus Pool.

The amount of income that you receive from your direct income varies according to the amount the advertiser pays; you receive 75% of your direct referrals income.

What is the Bonus Pool and how does it work

GlobalTeamsDirect has income from the sale of advertising on the website plus other sources of income that we cannot allocate directly to members but we do share this revenue with the members.

As part of the membership of GlobalTeamsDirect each member shares in the Bonus Pool.

Each members share of the Bonus Pool is determined according to the Points in the members accounts.

To earn points we reward some activity via points rather than cash. If you look in your members back office under Earnings you will see your current points balance and the current points value which you may convert to cash any time that you like.

As revenue is paid into the Bonus Pool from activity from any member what (in effect) has happened is that everyone is in everyone elses downline. The activity need not be in your downline.

To put it simply, you have unlimited width and (in effect) unlimited depth which is the fairest compensation plan of all.

The advertiser referral program in GlobalTeamsDirect pays you 10% of the amount paid for any campaign that advertiser purchases for life.

Why make a Compensation Plan this way

1. If you are a good business builder your referrals are yours to keep – no more giving away referrals.
2. If you find it hard to get referrals the Bonus Pool is in effect your downline.
3. If you cannot participate in a targeted campaign you can still benefit through the Bonus Pool.
4. If you refer an advertiser you could receive a life-long residual income.
5. You can progress through the Affiliate Program different ways to the Gold Member level.
